**PATIENTS TO BENEFIT FROM “FIND A PHYSICIAN” FEATURE ON [WWW.MAG.ORG](http://WWW.MAG.ORG)**

ATLANTA – The Medical Association of Georgia (MAG) has introduced a “Find a Physician” feature on its [www.mag.org](http://www.mag.org) Web site as a way to enhance the health care system in Georgia. It says that patients can use the automated search function to identify MAG member physicians in the state by locale and/or specialty.

“This is a significant development considering we have some 6,600 members,” says MAG President M. Todd Williamson, M.D., a Lawrenceville-based neurologist. “I believe that this new resource is going to advance health care in the state by facilitating the doctor-patient relationship.”

Patients can access the new feature by clicking on the “Find a Physician” tab on the upper right corner of the [www.mag.org](http://www.mag.org) home page.

The Medical Association of Georgia is the leading voice for physicians in Georgia. Go to [www.mag.org](http://www.mag.org) for additional information.
